

<b>Item Number</b>	Item 5
<b>Title of Paper</b>	Paper 3 - Fire Standard Pilot learning and progress report
<b>Decision or Information</b>	For decision
<b>Date of Meeting</b>	2nd April 2020
<b>Presented by</b>	Joy Flanagan
<b>Attachments</b>	Appendix A – ERD pilot progress and learning report Appendix B – Revised ERD Fire Standard - post consultation Appendix C – NOG Fire Standards production plan

## Summary

This paper and appendices provide the Board with an overview and progress report on the pilot process to develop Fire Standards for both Emergency Response Driving (ERD) and for National Operational Guidance (NOG).

The paper includes specific learning which will inform future Fire Standards development.

## Recommendation and Decisions Required

The Board is asked to consider the content of the progress reports in the appendices and discuss the conclusions reached; and, if content:

- note the content and learning from the ERD pilot consultation feedback in **Appendix A** and agree not to progress this Fire Standard at this stage allowing discussions between NFCC, Home Office and Department for Transport to continue, due to the concerns about the impact on implementation;
- note the minor amendments to the draft ERD Fire Standard as detailed in **Appendix B** this version will now be placed on hold;
- agree the plan for the development of Fire Standards in support of National Operational Guidance (NOG) in **Appendix C**.
